## BRODY CAPTURED BY RUSSIANS IS BLOW TO TEUTONS

## IRISH PROBLEM WILL BE SOLVED DESPITE FAILURES

OPENS DIRECT ROAD TO GALICIAN CAPITAL AND MAY CAUSE ENTIRE AUSTRIAN LINE SOUTHWARD TO FALL BACK, LOSING VALUABLE STRONGHOLDS.

## IRISH Factions Are United

Berlin Reports Sinking of One British Patrol Boat Off the Scotland Coast. Germans Attempt to Break French Line in the Vosges, but Are Unable to Hold It.

Driving forward at two points less than sixty miles apart Russian forces have captured Brody in Galicia and have broken the Austro-German first lines west of Lutsk in Volhynia, according to the latest Russian official communication.

In addition the Russians have taken nine thousand prisoners and are advancing. Vienna admits the penetration of the Austrian line on the Brody-Leschnow road and says the Austrians are continuing the battle on the southern border of Brody.

The capture of Brody, an important railway junction some fifty miles northeast of Lemberg, has given a strong hold to the Germans. The occupation of the town also may have the effect of causing the entire Austrian line southward toward Tarnopol and Buczacz, which has been held tenaciously in face of Russian attacks, to fall back.

The success of Volhynia, while also a menace to Lemberg, should general alarm Linsingen to be unable to withstand the Russian attacks which Petrograd reports are continuing, threatens the stronghold of Vladimir-Volynski and makes more insecure the Austro-German hold on Kovel.

British troops north of the Somme in France have succeeded in occupying the whole of Le Cateau, and a stroke at the Germans. The attack toward Bapaume also has been aided by the re-occupation of the Delville wood which was captured July 15 and surrendered a few days later in the face of German attacks. Fighting continues in the vicinity of Pozières.

On the front held by the French, fighting in the Somme region is reported by Paris. In the Vosges, however, the Germans have attempted to break the French line. In one attack south of Sainte Marie Pass the Germans gained a foothold in French positions but were driven out. Paris says. A second attack was broken up.

The French have made some progress to the west of Toulon and work on the right bank of the Meuse.

In a naval battle between several German submarines and three British patrol boats off the coast of Scotland, Berlin reports the sinking of one of the British vessels. It adds that the other two patrol boats are supposed to have been sunk. London says that in a raid by a German submarine on a fleet of British fishing vessels, eight of the vessels were sunk.

**German Airships Raid England Coast.**  
London, July 29, 3:02 a. m.—German airships raided the east coast of England early this morning, according to an official statement just issued. "The number of raids," said the statement, "has not yet been established. The reports came from Yorkshire and Lincolnshire. Bombs were dropped but details are lacking."

**British Retake Delville Wood.**  
London, July 28.—While the battle of the Somme is continuing with methodical success for the British forces, the Russians seem able to announce another important victory in the capture of Brody. This Galician town, fifty-eight miles northeast of Lemberg, is a great railway junction and it had been expected the Austrians would retain it at all costs. The swiftness of this new Russian stroke was unexpected and may lead to the capture of Lemberg itself.

The Russians, according to a report from Petrograd, also have broken the whole Austro-German front west of Lutsk. In this success they are reported to have captured two generals, 9,000 prisoners and forty-six guns.

For the present Kovel holds in importance to Lemberg. The position in this portion of the Austrian front seems to be that General Kaldeines has driven General von Linsingen's left wing behind the Stokhod river and has suspended his advance toward Kovel and is holding up the great Teutonic forces there while General Samohoff is pressing on toward Lemberg, which is defended by the forces of General Boehm-Ermoloff.

Petrograd correspondents attribute the success over the Austro-Germans almost entirely to the overwhelming

## Surprise May Be Caused by Publication of Note Protesting Blacklisting

London, July 28.—The protest of the United States government against the British government statutory blacklist was delivered to the foreign office late today, but officials there not having time to master its contents decline to discuss it. It is known that while the note is couched in far from language than the usual diplomatic documents it nevertheless plainly states that the United States government cannot admit the validity of the blacklist on account of the far-reaching effect its ramifications will have on the trade of its citizens.

The British government is informed

that the note will be given out to the American press Monday, but there is no indication as yet of the time of its publication here. The diplomatic note with the contents of the note states that its publication here is liable to cause some stir throughout Holland. It is generally believed that no room is left for doubting the success of Germany in receiving supplies of cotton in a round about way from Holland through neutral countries.

The Amsterdam Telegraaf says that quantities of cotton goods are regularly exported by fraudulent dealers to fictitious addresses in Rumania and Switzerland and ultimately destined for Germany.

Federal, state and city governments are making an investigation to determine whether anyone was to blame for the disaster.

## WORKING GIRL IS DECLARED MOTHER OF DISPUTED CHILD

Laredo, Tex., July 28.—Santiago Ramirez, a former governor of the Mexican state of Coahuila, and later a Villista leader, was publicly executed on the plaza at Saltillo, Mexico, Monday afternoon, according to news reaching Nuevo Laredo tonight from an authentic source. Ramirez, it was stated, had left Mexico with the dwindling of Villa's power and had returned recently when war between the United States and Mexico seemed imminent.

The first intimation of the trial of Captain Fryatt was called to the attention of the foreign office by press reports on July 18 to the effect that he was to be tried as the result of finding on him a watch containing an inscription reciting his efforts to ram a German submarine.

Efforts were made by influential Mexicans at Saltillo to save Ramirez's life, a three thousand word petition having been sent, it is stated, to General Carranza but the latter declined to intervene with the military authorities. Ramirez, a member of a prominent Saltillo family,

Mexican arrivals from the south to day state that many former Villa officers who accepted amnesty from the Carranza government at the time hostilities with the United States seemed possible, are making their way to the border in fear for their lives. These arrivals say General Villa, who is now in Mexico, has armed several hundred men and is at present in open revolt against Carranza. These statements could not be confirmed in Nuevo Laredo.

New York, July 28.—A national conference of progressives at Indianapolis on August 3 was called today by Matthew Hale of Massachusetts, acting chairman of the national committee. The conference will decide whether a convention shall be called to complete the national ticket.

NATIONAL CONVENTION ABANDONED.

New Orleans, July 28.—John M. Parker, vice presidential nominee of the progressive party, announced here late today that Matthew Hale, as vice chairman of the progressive national committee, has called a conference of the party leaders for Indianapolis on August 3 to decide upon the course considered most advisable for members of the party to follow. Because of this action, Mr. Parker said, the progressive national convention which he proposed should be held in Chicago on August 5 will be abandoned, at least for that date and place.

San Benito, Texas, July 28.—The quarantine of San Benito, a case of measles in company M, Fourth Oklahoma infantry, was lifted today except as to the company in which the case was discovered, according to an announcement made by Col. R. L. Bullard, commanding officer. The man affected by measles was Lawrence Altkin, a street car conductor of Oklahoma City.

Newton Estes, attorney general of Shelby county who has been on trial for the past four weeks, and voted on thirteen of the charges preferred by the house of representatives, finding Estes not guilty of any of the thirteen charges voted on. They will complete the balloting on the twelve remaining charges Saturday and will then announce the verdict.

Gen. D. B. Fitzhugh of Memphis took the argument this morning for the state speaking for about five hours and made a strong appeal for conviction. The court then adjourned for lunch and immediately thereafter began balloting on the charges.

## Reported Entry of Foreign Warship Incident Dropped

Washington, July 28.—In view of the report of the British admiral commanding the cruiser squadron off the Atlantic coast presented through the British embassy here, that it was not one of his ships which entered the Virginia capes Tuesday, the incident will not be the subject of inquiry or protest. The neutrality patrol of the Capes, however, will be continued pending departure of the German submarine merchantman Deutschland.

## LETTERS FROM THE PEOPLE.

Promises Culberson Support. Waco, Texas, July 24, 1916. Hon. Charley W. Jurney, Washington, D. C.

Dear Charley: Congratulations, old boy, to Senator Culberson and you self, and I may add that though to the present time I have not been faithful, though humble support, and allegiance to the cause of my neighbor Dr. Brooks. I am heartily glad of the present eventuation and denouement in favor of Senator Culberson in the present senatorial vortex, and with many other loyal friends of Dr. Brooks, can easily welcome and vouchsafe unto Senator Culberson in the coming primary "run-off" a hearty and definitive thousand majority in most, if not all, of the surviving political adversary in the senatorial arena, the Hon. Oscar B. Colquitt, and, as yet, even in the arena of American practical politics, the very gods themselves are ever on the side of the eternal truth and justice.

Even so, in this case, and despite the puny and futile efforts and puns of us all to the contrary, the unexpected and unexpected has again come to the light and thrown its favors and allegiance to the rest of Senator Charles A. Culberson himself.

Your friend,

## LOUISIANA DOCTOR FACES TRIAL ON STATUTORY CHARGES

Baton Rouge, La., July 28.—The parish grand jury tonight returned an indictment against Dr. Estelle D. Robbins of this city, a prominent specialist and surgeon, who was arrested on statutory charges made by Alma Black, 12-year-old daughter of Cole C. Black. Bond was fixed at \$5,000, which the doctor stated he expected to furnish tomorrow.

Robbins was placed in the parish jail yesterday. Declaring he was under the prisoner's safety, Sheriff Day refused the girl's request that he be kept in his residence under guard. An affidavit against the doctor was sworn out by the girl's father, who is a prominent planter and politician of this city. The girl had been a patient of Dr. Robbins.

"I am innocent," was the only comment Robbins would make on the action of the grand jury tonight.

superiority of the Russian artillery and Russia's apparently endless supplies of ammunition.

Tonight's official report of the British war office shows that the British are continuing their successful progress. The whole of Longueval now is in their hands as well as the Delville wood from which they drove the Fifth.

The final capture of Delville wood is very gratifying to the British people. It was first taken July 17 but was afterward abandoned. For many days the wood and the village of Longueval have been the scene of some of the heaviest fighting of the whole campaign. The possession of this wood and of Longueval is expected to facilitate greatly the further progress of the Franco-British forces.

Port Royal, S. C., July 28.—Plain, wholesome food, fresh air and regular hours caused the recruits of the Ninth Drill company of the United States marine corps, in training at the recruit depot here, to gain almost seven pounds a man in weight after four weeks of instruction. This company of fifty-six men weighed, upon enlistment, 8,075 pounds, and at the end of fourteen weeks' training it increased to 8,467 pounds; a gain of 391 pounds.

This same company had a chest capacity, upon enlistment, of 11,085 cubic inches, and after fourteen weeks had increased to 12,295 cubic inches, a gain of 1,210 cubic inches.

The physical gain of this company was 38 per cent.

## TUG READY TO TOW DEUTSCHLAND OUT

## Officers Ordered to Attend School of Musketry

Washington, July 28.—The school of musketry at Fort Sill, Okla., was ordered reopened today and a class of forty-five lieutenants and a large number of non-commissioned officers from the machine gun companies of regular and national guard regiments have been directed to report by August 20 to undergo four months' training in machine fire. The school was closed when the Mexican crisis was acute, all officers then under instruction being ordered to join their regiments. The new classes constitute the most extensive effort yet made by the army to provide scientific instruction in the use of machine guns which have played so vital a part of all fields of the European war.

## American Cotton in Great Demand

Baltimore, July 28.—An extra crew today went aboard the tug Thomas F. Timmins, which is to tow the submarine Deutschland to the Capes. Testing of the submersible's engines continued today.

The growing impression that the German submarine freighter Deutschland was delaying her departure for Germany until word was received from her sister ship, the Bremen, took on the appearance of fact today when it was learned from a source regarded as reliable that she would not sail until official information had been received from the Bremen and by her agents here.

The Deutschland, it is understood, is ready to sail on short notice.

It was also said on good authority that the Deutschland would make no secret get-away, and that it is probable she would leave her port here during the day in order to arrive at the capes under cover of darkness.

## Some Guesser Will Get \$75 in the Yellow Coin

Manchester, England, July 28.—The outlook in regard to future supply of raw cotton for the great Lancashire mills is serious, according to Chairman Hutton of the Council of British Cotton Growing associations. Mr. Hutton says:

"The demands of the world for cotton are going to increase, and particularly in America, which country, thanks to the war, is now getting a very strong hold on the export trade. This means that every year we shall see a smaller amount of cotton to go to America, and we can be sure that America will not go short, and that Great Britain will be the greatest sufferer. The situation is one to cause the gravest anxiety. I do not think one can exaggerate its seriousness. Unless we can build up new supplies in other countries, losses face the Lancashire cotton trade, and it may be that Lancashire will permanently lose a very large proportion of our export trade. If that should happen many of our mills will have to close and a large proportion of the population must migrate."

Buy a jitney box—and a guess is thrown in as extra measure. You're lucky to buy a box, but if you're accompanying guess should be nearest the absolute number of boxes in the window—your luck has assumed at the end-of-the-rainbow proportions.

GUARDSMAN DECLARES AN  
OFFICER DECEIVED HIM.

Will Be Only One Tried for Failing to  
Take Oath to Muster In.

Columbus, N. M., July 28.—Louis O. Gardner, a member of company K, First Infantry, New Mexico national guard, is being held in custody by military authorities here. It is alleged that Gardner refused to take the oath that would muster him into the service of the United States when the troops were called for border duty by President Wilson.

Military authorities here asserted that so far as is known this will be the only case of its kind to be tried before the general court-martial to meet here August 7.

Gardner made public tonight his reasons for his refusal. A cook by trade, he said he enlisted under a promise of \$45 a month as company cook. On his first payday he found he received 50¢ daily. When the time came for signing the muster roll, he accordingly refused. Gardner declared that he will fight the case to a finish basing his defense on the contention that he was deceived by the recruiting officer. He also claims that he has three children to support, which he is unable to do on \$15 a month.

Washington, July 28.—One of the first tasks assigned to the tariff commission to be created by the pending revenue bill is to take a tour of Europe.

Administration officials let it be known that the plan to send the proposed commission abroad is being seriously considered.

He saw the same vessel that the Louisiana reported.

Commander Shane said today. "And while I cannot say that it was a British cruiser, I do know that it was a warship."

K. C. M. & O. Officials Elected.

BOY FLIER IS ARMY PRIDE.

France Has Decorated Sergeant Guy-  
nemer Three Times.

Answers, London.

One of the marvels of the war-torn world is the way our young ones have come out of their shells and nothing strikes the man in the street—and the women also—with such admiration wonder as the way the boys have taken to flying.

The French, who have an undoubted genius for flying are proud of a youngster only just turned twenty-one. His name is Guyenemer, and he is a sergeant, and may rival Barros and Peugeot.

But if kissing goes by merit and not by favor in France, he is likely to have a rise pretty soon, apart from his aeroplane, for he has already brought down five enemy machines.

The fifth came down in flames only a week or two since. He may have bagged a sixth by this time.

He is decorated with the Cross of the Legion of Honor (the most coveted distinction in France), the Military Medal and the Croix de Guerre. Not bad for a sergeant.

But he nearly came a cropper recently.

It was only his wonderful nerve which saved him. He was nine thousand feet up and one hundred feet more or less above an enemy craft he wishes to get at.

He got at it with a vengeance for

his lubricating oil froze with the extreme cold and he came down, striking the upper plane of the German machine.

The shock nearly turned him topsy-turvy and he fell like a stone. His fats seemed sealed. After dropping 1,500 feet, by a prodigious display of pluck and coolness he managed to recover his equilibrium and landed safely and with his excited comrades, who were far more upset than he was.

That's the sort of young man France and Britain are producing in platoons and regiments. They will do something better even than flying when the war is over. Watch them!

## Daniel E. Garrett Thanks Voters

Former Congressman Garrett, who was renominated for that office in the democratic primaries last Saturday, addresses the following letter of appreciation:

To the Democrats of Texas: From the returns of the recent primary election as shown by the daily papers, it appears that the state has renominated progress from the state at large.

"May I now publicly express to my democratic friends throughout our great state my deep appreciation of their loyal support and untiring efforts in my behalf, without which my nomination would have been impossible. To them I cheerfully acknowledge a great debt of gratitude.

I cannot permit the opportunity to pass of publicly expressing my profound appreciation of the generous support which my home people have always given me. It is a source of sincere gratification.

"Words are inadequate to convey the heartfelt gratitude which I entertain for that host of friends who, when so earnestly espoused my cause, and laid upon themselves the burden of carrying my candidacy to their own people. I shall ever be thankful for this unselfish service.

"I wish also to thank the editors of the many, many newspapers in Texas for their hearty support, and the liberal manner in which they presented my candidacy to their readers.

"Should again return to congress my one great purpose shall be to faithfully represent all the people of my state, to honestly think for and guard their welfare as I may be given wisdom, and to render them at all times the very best service of which I am capable. Gratefully,

DANIEL E. GARRETT."

The largest of the luncheon parties was noted a group of maids assembled on invitation of Miss Bell Edmond in recognition of the presence of Mrs. W. W. Siley.

## Daniel E. Garrett Thanks Voters

Former Congressman Garrett, who was renominated for that office in the democratic primaries last Saturday, addresses the following letter of appreciation:

To the Democrats of Texas: From the returns of the recent primary election as shown by the daily papers it appears that I have been nominated for congress from the state at large. May I not publicly express my democratic friends throughout our great state my deep appreciation of their loyal support and untiring efforts in my behalf, without which my nomination would have been impossible. To them I cheerfully acknowledge a great debt of gratitude.

I cannot permit the opportunity to pass, of publicly expressing my profound appreciation of the generous support which my home people have always given me. It is a source of sincere gratification.

Words are inadequate to convey the heartfelt gratitude which I entertain for that host of friends all over Texas, who so earnestly espoused my cause, and took upon themselves the burden of carrying my candidacy to their own people. I shall ever be thankful for this unselfish service.

"I wish to also thank the editors of the many, many newspapers in Texas for their hearty support, and the liberal manner in which they presented my candidacy to their readers.

"Should I again return to congress my one great purpose shall be to faithfully represent all the people of my state, to honestly think for and guard their welfare as I may be given wisdom, and to render them at all times the very best service of which I am capable. Gratefully,

"DANIEL E. GARRETT."

## Central Labor Council Will Consider Plans for Celebration

There will be held on next Wednesday night a regular meeting of the Central Labor Council, at Labor hall in the Chalmers building, and at this time special attention will be given to the Labor Day celebration which is to be held here on Labor Day, the first Monday in September.

Plans have not been fully matured for this meeting as yet, but it is reasonably certain that it will be made one of the biggest days of the kind ever noted in the city. Committees were appointed some time ago and have been at work, so that it probably will not require a great deal of time to get everything arranged for the celebration.

### Split Switch Causes Thirty Minute Delay to Katy Flyer

The Katy Flyer, No. 6, en route from Gaveston to St. Louis, was delayed for thirty minutes early yesterday morning when the engine split a derail switch on the approach to the Brazos bridge. The drivers of the engine and the front track of the engine car were derailed. No one was injured.

With the interlocking type of switch used on the main line, it is not thought that the heavy engine in some manner got loose and tumbled with, but that the heavy engine in some manner got a leverage which resulted in the rear wheels of the phaeton and the two drivers went their ways after expressing mutual satisfaction.

Mr. and Mrs. E. J. Vesey, formerly of Waco but for the past five years living at Carizzo Springs, in Dimmit county, are visiting relatives in Waco and vicinity and will be here until next Tuesday. Mr. Vesey said that the past year he had the longest one in the history of that section, almost, and the funeral will be held Sunday.

Sergeant W. B. Wisener of the United States army recruiting office on Austin street, who has been in Corsicana, has returned to Waco. Recruiting has been going forward rather slowly in most of the country, but the campaign has been held up by the traffic rush yesterday afternoon.

The honor of making the first move towards getting obstructions out of the path of the proposed white way on Austin street belongs to the S. H. Kress company, this company removing the first snag in the route. It is expected the others will follow this example, so the work may be initiated on the white way. Orders have been issued for the removal of all poles, electric lights and things of that character which are in the way, and when this shall have been done the white way will be put under actual construction.

## THE VOTE ANALYZED.

The returns upon submission indicate that the total vote cast upon that issue will be about 325,000, and that the majority for submission will be between 3,000 and 5,000. Over 75,000 voters either scratched the question or overlooked it.

Submission made nearly all of its gains in wet territory. This significant fact was specially emphasized in the larger cities of the state. Dallas county gave 334 majority against submission in 1914; now it gives 1,176 majority for submission. Travis county gave 570 majority against submission in 1914, and this has been almost wiped out. McLennan county gave 1,261 majority against submission two years ago, and this has been changed to a favoring majority of 489. Tarrant county gave a majority of 715 against submission in 1914 and a majority for it of 288 this year. Harris county decreased its adverse majority of 5,610 given in 1914 to 3,816 this year. Bexar county reduced its adverse majority of 9,387 in 1914 to 6,208 this year. Thus it appears that the counties in which are situated the cities of Waco, Fort Worth, Dallas, Houston, Austin and San Antonio gave a net gain for submission of over 9,000 votes, as compared with 1914.

This trend toward prohibition was not confined to the larger cities, but is found in most of the wet territory of the state. The following counties gave majorities against submission in 1914 and in its favor this year: Angelina, Archer, Bastrop, Bee, Brazoria, Cass, Chambers, Coryell, Dallas, Edwards, Falls, Glasscock, Grimes, Hamilton, Harrison, Jim Wells, Kent, Kimble, Kleberg, Lampasas, Mason, McCulloch, McLennan, McMullen, Midland, Mills, Nacogdoches, Nolan, Real, Rusk, San Saba, Stephens, Sutton, Tarrant, Tom Green, Tyler, Upshur, Van Zandt and Wood.

Other noticeable gains were made for submission in the following counties: Austin, Bexar, Callahan, Colorado, Gonzales, Harris, Kinney, Llano, Shackelford, Somervell, Victoria, Williamson, Washington and Wharton.

In the light of this analysis, it is shown that submission has won a remarkable victory. It has overcome the apathy of its friends, and won over from 15,000 to 20,000 of its former enemies.

It cannot be doubted that when the issue is directly tendered on statewide prohibition, all pro territory will come to the scratch with its normal majority, and, in that event, prohibition will sweep the state by from 75,000 to 100,000 majority.

The reason given for withholding the vote on submission in El Paso is that interest was so great in local races. The same condition existed in every county in the state. Submission was at the head of the ticket, and the vote was counted as cast. That nigger might as well climb out of the wood-pile. He's under surveillance.

## DAILY SHORT STORY.

## ON THE SAND.

By LOUISE OLIVER.

(Copyright, 1916, by the McClure Newspaper Syndicate.)

The swim out to the sand bar and back again never had made Ted tired. To that a scorching July sun, the inviting shade of a beach chair and a natural propensity for sleep at any time and under all conditions, and you can readily understand why Morpheus found him an easy victim that eventful morning.

Suddenly something hit him with sickening force in the solar plexus, and he sat up before he was awake with the dim idea that the largest projectile of a foreign bombardment had selected him for a target.

Then something said softly, "Goo!" and, with a few delighted gurgles, "Goo!" again. A baby looked up at him with placid blue eyes and turned his mouth into a thousand smiles, beating the air at the same time with two pink fists that fairly vibrated with excitement.

"Where did you come from, baby dear? Out of the everywhere into the here!" came into Ted's head.

"Hello, there, mister or miss or whatever you are," he exclaimed. "Where did you come from?"

"You don't say so! Well, if you had only sent word I might have been better prepared to receive you. But it seems to be the thing nowadays to drop in informally. I suppose—" Ted looked around and saw no one who appeared to have lost a baby recently, or who might in any way be associated with one. "I suppose he must have fell out of the chair, seeing that you had such a nice soft thing to land on."

"Here—that won't do!" as baby tried to stuff a moist, sand-covered hand into his mouth. "I'll bet you're a boy!" brushing it off and grabbing the other just in time to prevent a like accident. "Boys are always thinking of their stomachs! But when you smile like this, I think we're a girl." The girls all like me to please. How bright!" The wide-open blue eyes searched him inquiringly. "All except one, and she doesn't think I'm worth two for a cent. But it's all because she doesn't know me. We have never been introduced. By Jove, here she comes now!"

A variety of reasons caused him to pick

## BEHIND THE SCENES.

BEN MYATT SUSPECT  
TAKEN FROM MARLIN

MUST ANSWER GOAT-STEALING  
CHARGE IN SAN JACINTO  
COUNTY.

Business Men of Marlin Petition the  
I. & G. N. Railroad to Stop Night  
Passenger Trains at Highbank.

Marlin, Texas, July 28.—The man brought here from San Jacinto county as a Ben Myatt suspect, and afterward identified as Fred Moore, has been transferred back to that county. He was wanted on a charge of goat stealing.

A petition signed by all of the business men at Marlin, asking the I. & G. N. Railway company to stop the night passenger trains at Highbank, will be presented to the traffic department of that road in Houston today by C. B. Monday, who left last night with the petition.

Mildred Moore, age 13, died at the home of her parents at Reagan this morning of diphtheria. Interment took place this afternoon in the Marlin cemetery. The deceased was a daughter of Mr. and Mrs. W. W. Moore, who formerly resided at Lott.

Misses Fink, Baade and Kestler of Waco are guests of Mesdames Arrington, Haug and F. W. Fink.

E. L. Hughes, district superintendent of missions for the Christian church, will conduct services here Sunday at 11 a. m. and 8:30 p. m. He will make the data upon which to base an estimate and plans for the system. A single system has been decided upon as sufficient for years to come. Service will be available to all parts of the city. Work will begin on plans and blue prints at once.

The good roads campaign is taking on new vigor, and plans are being discussed throughout the state for road improvement. The legislature will have a chance to stimulate this movement by providing for the use of convicts on the public roads. This has been attempted by practical men in every legislature for many years past, but dreamers and theorists have defeated the proposal. It may be that common sense will be in the saddle this time.

From Oklahoma northward, the temperature has been ranging from 100 upward for several days. Grand Old Texas has been, comparatively, as cool as a cucumber, even under the tension of a campaign. It takes more than an ordinary cause of aggravation to make Texas as hot as either Oklahoma, Arkansas or Missouri.

The state still waits with bated breath the announcement of the coming tax rate. From somewhere in East Texas comes the word that former Candidate Morris also has his ear to the ground.

The Deutschland is getting ready for a game of hide-and-seek with the allies, with the wide ocean for a playground. If it can make a successful get-away, the chances are that it will make a home run.

Two months ago the antis romped all over the pros in the McLennan county convention. Will they do it again today? Well, hardly. The world do move, Brer Jasper.

Every plan has been tried in the effort to capture Villa except sprinkling salt on his back gallery. Why not return to time-tried and fire-tested agencies?

The funniest thing that ever happened in Texas is Colquitt pleading for prohibition support. Well, Shamus O'Brien, what do you think of that?

Methodists Close Meeting.

Eddy, July 28.—Revival meetings at the Methodist church close here Sunday morning. Some thirty-five additional meetings have been opened made.

Revival services at the Baptist church are to begin next Sunday morning, services to be conducted by Rev. Mr. Morgan of Pearall, who conducted the services here last year.

The baby up just then—either to bite the confusion which he always felt when the girl came near, or because it looked heartless to let a beautiful, embroidered, shell-pink baby lie unprotected on the sand. But anyway, he laid it over his shoulder in the way babies do, as though he had been headed in a foundling asylum all his life.

The girl passed, but not before she had taken in the stage setting and the chief performers of the little act.

To go back, Ted and the girl were staying at the same hotel. He had tried to meet her—as he had explained to the baby—but no mutual friend had so far appeared. But he had managed to let her know he was interested. She had fairly to fall over him on her way to the dining-room, where she took her daily dip, and after the hour, and he frequented the amusements she liked best. On the other hand, the girl continually frowned her displeasure at his presence, and it was evident that she was just as keen to avoid meeting him as he was anxious to meet her.

The girl walked along with her companion, but turned back as she saw something lying on the sand. Ted's heart nearly stopped when he saw her coming, and he almost dropped the baby, but she clutched it tightly, deposited it with the picket up the top, and handed it to him, with "There, your baby's rattle!" and, with a final, added, "Cute little things like you!"

She was gone with that, and Ted suddenly wished the sands would swallow him and spare him any further torment of living. His baby! Merciful heavens!

"So you look like me! We ought to be chums, then, I suppose, with a common grievance like that; but I think it's time we parted company. Back you go where you came from, babykin. Nurse or some one will be back to you." I'm going along in five minutes or so to see if you are all right." He laid baby in its soft nest, gave it the rattle and tried to collect his scattered senses by another swim to the beach.

Sure enough, when he returned baby was gone! He breathed more freely then. He felt personally responsible as long as no one else materialized.

Another day Ted came out of a movie just as a woman passed wheeling a baby perambulator. Something flew out of the carriage and landed at his feet. He recognized the blue rattle of his friend the baby and handed it over.

"Oh, thank you!" beamed the mother.

Ted was speechless. "But I'd have gone a week ago if—if it hadn't been for you!" he declared suddenly.

Then he wanted to see. "It's wicked for me to keep George away from May and the baby, isn't it?" she said. "I'll go home tomorrow."

"Then I'll go, too," smiled Ted.

"Then I'll go, too," beamed the mother.

A variety of reasons caused him to pick

## THE VOTE ANALYZED.

The returns upon submission indicate  
that the total vote cast upon that  
issue will be about 325,000, and that  
the majority for submission will be  
between 3,000 and 5,000. Over 75,000  
voters either scratched the question or  
overlooked it.

Submission made nearly all of its  
gains in wet territory. This significant  
fact was specially emphasized in  
the larger cities of the state. Dallas  
county gave 334 majority against sub-  
mission in 1914; now it gives 1,176  
majority for submission. Travis coun-  
ty gave 570 majority against submis-  
sion in 1914, and this has been almost  
wiped out. McLennan county gave  
1,261 majority against submission two  
years ago, and this has been changed to a  
favoring majority of 489. Tarrant coun-  
ty gave a majority of 715 against sub-  
mission in 1914 and a majority for  
it of 288 this year. Harris county de-  
creased its adverse majority of 5,610  
given in 1914 to 3,316 this year. Bexar  
county reduced its adverse majority of  
9,387 in 1914 to 6,208 this year. Thus  
it appears that the counties in which  
are situated the cities of Waco, Fort  
Worth, Dallas, Houston, Austin and  
San Antonio gave a net gain for sub-  
mission of over 9,000 votes, as com-  
pared with 1914.

This trend toward prohibition was  
not confined to the larger cities, but is  
found in most of the wet territory of  
the state. The following counties gave  
majorities against submission in 1914  
and in its favor this year: Angelina,  
Archer, Bastrop, Bee, Brazoria, Cass,  
Chambers, Coryell, Dallas, Edwards,  
Falls, Galescock, Grimes, Hamilton,  
Harrison, Jim Wells, Kent, Kimble,  
Kleberg, Lampasas, Mason, McLennan,  
McMullin, Midland, Mills,  
Nacogdoches, Nolan, Real, Rusk, San  
Saba, Stephens, Sutton, Tarrant, Tom  
Green, Tyler, Upshur, Willacy, and  
Winkler, Missouri.

## DAILY SHORT STORY.

## ON THE SAND.

By LOUISE OLIVER.

Copyright, 1916, by the McClure Newspapers  
Syndicate.

The swim out to the sand bar and back  
six times repeated had made Ted tired.  
Add to that a searing July sun, the  
inviting shade of a beach chair and a  
natural propensity for sleep at any time  
and under all conditions, and you can  
readily understand why Morphous found  
an easy victim that eventful morn-  
ing.

Suddenly something hit him with slick-  
ening force in the solar plexus, and he  
sat up before he was awake with a dim  
idea that the largest bombarded had selected a  
target.

Then something said softly, "Goo--"  
and, with a few delicious gurgles, "Goo--"  
again. A baby looked up at him with  
placid blue eyes and twisted the corners  
of its little rosebud mouth into a thou-  
sand smiles, beating the air at the same  
time with two pink fists that fairly vi-  
brated with excitement.

"Where did you come from, baby dear?"  
Out of the sand bar came into the here-

"Hello, there, mister or miss or what-  
ever you are," he exclaimed. "Where  
did you come from?"

Baby gurgled an answer.

"You don't say so! Well, if you had  
only sent word I might have been better  
prepared to receive you. But it seems  
to be the thing nowadays to drop in in-  
formally." Ted looked  
around for a baby recently, or who might  
in any way be associated with one.  
"I suppose," he said, "that you fell out of  
the chair, seeing that you had such a nice  
soft thing to land on!"

"Here—that won't do!" as baby tried  
to stuff a moist, sand-covered hand into  
its mouth. "I'll bet you're a boy!" breath-  
ing it off and grabbing the other just in  
time to prevent a like accident. "Boys  
are always thinking of their stomachs."  
But when you smile at me so sweetly I  
think you're a girl." The girls all like  
to pieces. How bright!" The wide-  
open blue eyes searched himinquiringly.

"All except one, and she doesn't think  
I'm worth two for a cent. But it's all be-  
cause she doesn't know me. We have  
never been introduced. By Jove, here she  
comes now!"

BEN MYATT SUSPECT  
TAKEN FROM MARLIN

MUST ANSWER GOAT-STEALING  
CHARGE IN SAN JACINTO  
COUNTY.

Business Men of Marlin Petition the  
I. & G. N. Railroad to Stop Night  
Passenger Trains at Highbank.

Marlin, Texas, July 28.—The man  
brought here from San Jacinto county  
as a Ben Myatt suspect, and afterward  
identified as Fred Moore, has been  
transferred back to that county. He  
was wanted on a charge of goat stealing.

A petition signed by all of the business  
men at Marlin, asking the I. & G. N.  
Railway company to stop the night  
passenger trains at Highbank, will be  
presented to the traffic department of  
that road in Houston today by C. B.  
Monday, who left last night with the petition.

Mildred Moore, age 13, died at the  
home of her parents at Reagan this  
morning of diphtheria. Interment took  
place this afternoon in the Marlin cemetery.  
The deceased was a daughter of Mr. and Mrs. W. U. Moore, who formerly resided at Lott.

Misses Fink, Baade and Kestler of Waco  
are guests of Mesdames Arrington, Haug and F. W. Fink.

E. L. Hughes, district superintendent  
of missions for the Christian church,  
will conduct services here Sunday at  
11 a. m. and 8:30 p. m. He will make  
Marlin his home in future.

That Marlin will have one of the  
most complete and modern sewer sys-  
tems and disposal plants of any city of  
its size in Texas is now assured. The  
\$45,000 bonds voted for this purpose  
have been sold and City Engineer  
Goodrich, assisted by J. W. Maxey  
of Houston, has completed the data  
upon which to base an estimate and  
plans for the system. A single system  
has been decided upon as sufficient for  
years to come. Service will be available  
to all parts of the city. Work will begin  
on plans and blue prints at once.

the baby up just then—either to hide the  
confusion which he always felt when  
the girl came near, or because it looked  
heartless to let a beautiful, embroidered  
shell-pink baby lie unprotected on the  
sand. But, anyway, he picked it up and  
held it over his shoulder in the way ba-  
bies do, though he had been head  
nurse in a founding asylum all his life.

The girl passed, but not before she had  
taken in the stage setting and the chief  
performers of the little act.

To go back, Ted and the girl were stay-  
ing at the same hotel. He had tried  
to meet her—as he had explained to the  
baby—but no mutual friend had so far  
appeared. But he had managed to let  
her know he was interested. She had  
fairly to fall over him on her way to the  
dining-room, he chose to bathe at the  
place where she took her daily dip, and  
at the same hour, and he frequented the  
amusement she liked best. On the other  
hand, the girl continually frowned at  
his disapproval of his presence, and it was  
evident that she was just as keen to  
avoid meeting him as he was anxious to  
see him.

The girl walked along with her com-  
panion, but turned back as she saw some-  
thing lying on the sand. Ted's heart  
nearly stopped when he saw her coming,  
and he almost dropped the baby, but he  
clutched it tightly, desperately, when she  
picked up the toy and handed it to him,  
with, "There is your baby's rattle!" and,  
half stopping, added, "Cute little things  
look like you!"

She was gone with that, and Ted sud-  
denly wished the sands would swallow  
him and spare him any further torment  
of living. His baby! Merciful heavens!

"So you look like me! We ought to  
be chums again, like that, but I think it's  
time we parted company. Back you go where  
you came from babykin! Nurse or some-  
one will be back soon. I'll come along  
in five minutes or so to see if you are all  
right." He laid baby in his soft nest,  
gave it the rattle and tried to collect his  
scattered senses by another swim to the  
water.

Sure enough, when he returned baby  
was gone! He breathed more freely now.  
He felt personally responsible as long as  
no one else materialized.

Another day Ted came out of a movie  
just as a woman passed wheeling a baby  
perambulator. Something flew out of  
the carriage and landed at his feet. He  
recognized the blue rattle of his friend  
the baby and handed it over.

"Oh, thank you!" beamed Ted.  
"A variety of reasons caused him to pick

the baby up just then—either to hide the  
confusion which he always felt when  
the girl came near, or because it looked  
heartless to let a beautiful, embroidered  
shell-pink baby lie unprotected on the  
sand. But, anyway, he picked it up and  
held it over his shoulder in the way ba-  
bies do, though he had been head  
nurse in a founding asylum all his life.

The girl was gone with that, and Ted sud-  
denly wished the sands would swallow  
him and spare him any further torment  
of living. His baby! Merciful heavens!

"So you look like me! We ought to  
be chums again, like that, but I think it's  
time we parted company. Back you go where  
you came from babykin! Nurse or some-  
one will be back soon. I'll come along  
in five minutes or so to see if you are all  
right." He laid baby in his soft nest,  
gave it the rattle and tried to collect his  
scattered senses by another swim to the  
water.

Sure enough, when he returned baby  
was gone! He breathed more freely now.  
He felt personally responsible as long as  
no one else materialized.

Another day Ted came out of a movie  
just as a woman passed wheeling a baby  
perambulator. Something flew out of  
the carriage and landed at his feet. He  
recognized the blue rattle of his friend  
the baby and handed it over.

"Oh, thank you!" beamed Ted.

A variety of reasons caused him to pick

the baby up just then—either to hide the  
confusion which he always felt when  
the girl came near, or because it looked  
heartless to let a beautiful, embroidered  
shell-pink baby lie unprotected on the  
sand. But, anyway, he picked it up and

County Conventions  
of Two Parties  
Are Today

Delegates to the state conventions of the democrats and the republicans will be selected by the delegates of the parties from the county which assemble in this city today, beginning at 2 p.m.

Chairman H. E. Brown of Crawford will call the democrats together in the Fifty-fourth district court room. Because of the interest shown by the pros in the precinct conventions last Saturday, it seems that they will have the majority of the county delegates. The control of the county presents an interesting problem, since the county is usually strongly in the anti lists.

Dr. G. M. Paton of this city, chairman of the executive committee of the republicans, will call the county G. O. P. convention together and preside until a chairman is selected. The convention will be held in Justice Giles P. Lester's court room.

## TABORIAN GATHERING WILL CLOSE TONIGHT

CHIEF GRAND MENTOR EXPRESS-  
ES APPRECIATION FOR WACO'S  
HOSPITALITY.

## STAGE PARADE DOWNTOWN

Marchers Are Viewed by Hundreds.  
Pass Resolution Against  
Crime.

The closing session of the grand temple and tabernacle of the Knights and Daughters of Tabor will be held today and the chief grand mentor, C. E. W. Day, and his officers will leave on a special train tomorrow, while many of the delegates will leave on the evening trains. It is said to be the most successful session ever held in the history of the order in twelve years.

Chief Grand Mentor C. E. W. Day was led in his expressions about Waco and the treatment which they have received at the hands of all the people, and said that he was glad that they had selected this as the home of the order. He spoke of the other orders which would follow next year in holding their annual sessions in this city.

No time in the history of the order was so full of religious fervor as manifested itself yesterday morning at the opening of the grand session. When Daughter Rosa Simpson, the noted deaconess and evangelist, started to sing "What a Friend We Have in Jesus," five hundred voices joined in, and all but lifted the roof from the pavilion. Women wept and sifuted, men walked the floor, ringing "Glory to God" and "amen," and the house was thrown into a wild excitement when the Rev. G. W. Rice carried them to the throne of grace. This brought forward many sinners who asked for prayer and it looked for a while that the session was going to be turned into a revival.

But when the hour came for business Daughter M. A. Jordan demanded the bell and all were still, and at once took part in the opening in keeping with the ritual. Then followed singing by Daughter Nora Cole, and prayer by Chief Grand Orator J. S. Adair.

Daughter Stella E. Gordon, the efficient chief grand scribe, read the journal. She had kept a verbatim account of what happened in the grand session, and her journal was considered of vital interest. She was given a standing ovation of thanks.

Chief Grand Scribe S. S. Reed called the roll of grand officers, all being present. There was a rejoicing when the grand scribe read a communication from the local lawyer of the order stating that the case filed against the grand temple and tabernacle and officers in 1913 had been decided in favor of the grand officers. They led them in singing "God Will Take Care of You," and brought from the chief grand mentor a telling address.

"Do the right and God will take care of you," he said. "He took care of our mothers and fathers back in the days of slavery. He permitted them to pass through the hardships of slavery, which meant training school for them. They could not sing nor write, but they were tried to God. They had never traveled far, but by faith had gone to Calvary's summit and there laid their burdens at the feet of Jesus. While they could not write yet they knew that their names were written on high."

Chief Mentor Day spoke of men who became dissatisfied several years ago and wanted to break away from the order by declining re-enrollment, "but the white man has looked into the affair of our order and declared that we were right," he said, "and now we are going to do things. We are proud of this order, and we are going to allow no one to break it up." Shouts of "No, no" came from all parts of the house.

**WACO TREASURER MAKES REPORT.**

The report of Dr. H. L. Smith of Waco, chief treasurer, was perhaps the most important report because the finances have much to do with the life of the order. Nearly a quarter of a million dollars had passed through the hands of Treasurer Smith and handled by the Waco banks, and according to his report, every cent was accounted for. He is considered a safe business leader of his people and his order is proud of him. He has many friends among the best white people in the city. His report will keep in with that of Chief Grand Scribe Reed. He is the first man in Waco to hold the position and is making good.

"Negroes must stop dying," declared Dr. J. W. Fridia, grand medical examiner of the order, "and to stop dying they must study how to live. They must know more about themselves and change their habits. I am concerned about how I am to get around in heaven, whether I am to walk the streets paved in gold or not, but I do

good."

Delegates to the state conventions of the democrats and the republicans will be selected by the delegates of the parties from the county which assemble in this city today, beginning at 2 p.m.

Chairman H. E. Brown of Crawford will call the democrats together in the Fifty-fourth district court room. Because of the interest shown by the pros in the precinct conventions last Saturday, it seems that they will have the majority of the county delegates. The control of the county presents an interesting problem, since the county is usually strongly in the anti lists.

Dr. G. M. Paton of this city, chairman of the executive committee of the republicans, will call the county G. O. P. convention together and preside until a chairman is selected. The convention will be held in Justice Giles P. Lester's court room.

"Young negro men must learn that they cannot god around the streets all night and work all day. They must take rest. They must get the right conception of life. Our women must stop the indiscriminate kissing habit. They must make things happen that will destroy disease rather than spread it."

**ESSENTIAL THINGS  
OF LIFE STRESSED.**

The Rev. Dr. W. W. Cowan of Jacksboro delivered an address in which he told the members of the order to look after the essential things of life, and that flashy clothes and high sounding titles would never take the place of manhood or womanhood. The world is demanding of a man, and if you are a woman, and if you cannot measure up to it, if you are not making any excuses for yourself, but you must stand aside for the real man and the real woman. What are you going to do? The test is applied to you.

"In reply, permit me to say that I will gladly do everything in my power for our democratic nominees. It is my desire to see you practically all of us remember October, stumping in the doubtful states.

"At this time we have a serious situation in Texas, and I regard it as my duty to the democratic party to remain here and aid true democrats in solving our grave difficulties. A strong fight will be made to prevent any endorsement of Andrew Jackson Wilson and the great destructive laws passed under his administration. Specific approval of each one must be given.

Indicating that he will spend the coming month in Texas and will take an active interest in state politics bearing on the national administration, Congressman R. L. Henry has written the following letter accepting an invitation to take the stump in behalf of Mr. Wilson:

## WILL BUFFS GET BY WITH MOORE?

## CHAMPION WELSH TAKES BEATING

Unless the particulars of the shady Moore case are explained satisfactorily within the next few days, Waco stands a mighty good chance of winning the protest filed yesterday by Manager Ellis Hardy in the ninth inning. Doak Roberts can't crawl out by saying that any technicality in the procedure was violated, either, such as failure to protest in time or to the proper parties, or any of the many ways in which a kick could be registered against the move.

The local boss don't like to win a ball game by protesting. He has had opportunities to do so, but never took advantage of them unless some of the league's rules had been grossly broken. The step he took yesterday in protesting the game won by Houston was prompted by the action of that club in trying to win ball games with a pitcher that apparently does not belong to them, if their ownership is in strict accordance with a Texas league rule.

This ruling says that no first division club will be allowed to win by securing a rule of acquisition in any other way during the season a player belonging to a second division club. Some weeks ago, Houston attempted to purchase Pitcher Smithson from Beaumont, but the latter had already gone to join the Buffs when the deal was disallowed by President Morris. But the two clubs involved in the Eugene Moore brouhaha have a shillong recourse.

The story goes that the southpaw was first sold to the St. Louis Browns by Galveston and then that the major league club turned him over to Houston. Looks kind of strange, doesn't it? And the players James is referring to St. Louis lately; that is, in the last five years or so. Reports say that he once had a trial in the big show, but let that part of it go. James hasn't set the lead on for this year, but his story jumped the Pirates unexpectedly when they needed him, and has proved somewhat of a bad actor, it is said. Why, then, should the Browns want him? With what he did sell him to Houston before he had ever reported? Looks like they didn't need his services very much or else the Houston magnates let loose a large lump of cash.

All these positions are without the best foundation, according to the belief of every baseball man in the state; they believe the whole affair pure bunk all the way through.

Now it's up to Harry Morris—will he make the same decision as he did in the Smithson deal, or will he let Doak Roberts get away with it?

**Husband Drowned  
in Wife's Sight;  
Burial Yesterday**

With the cries of her husband ringing in her ears, but powerless to help him, Mrs. James Hazeltine, wife of a farmer who has been living about two miles northeast of Hewitt, on Thursday afternoon saw her husband sink to his death at Bradley's Crossing on the farm of Charles E. Moore, on the Middle Bosque, and the four children of the Hazeltine's also were on the bank at the time of the drowning.

The body was recovered in about two hours, taken to Hewitt, and the funeral took place yesterday afternoon at 4 o'clock at Stanford's Chapel. The body was baiting a trot line when his wife heard him cry out, and she waded into the water up to her waist in an effort to aid him, but seeing that she could not reach him, tried to get other members of the party;

when they got back, however, the man had sunk out of sight. Efforts were made to resuscitate the drowned man, but in vain, as he was under water for two hours; the water is about twelve feet deep at this point.

Mr. Hazeltine had been a resident of the Hewitt community about seven years and was respected by all who knew him. The Compton Undertaking company had charge of the funeral.

**Former Waco Man  
Tells of Storm  
in Alabama**

J. Hays Watson of Preston street, East Waco, is in receipt of a letter from his cousin, J. B. Thornton, postmaster at Mobile, Ala., telling of the damage done by the recent great storm, and the letter says that the residence of Postmaster Thornton was almost ruined by the terrible wind and the driving rain.

Practically all the windows were blown out and the house flooded by water, which was even forced under the shingles by the force of the wind, which attained a velocity of little more than a hundred miles an hour. Water rose in places to a depth of ten feet or more, and devastation stalked abroad, though the loss of life was comparatively light. Hardly a house in Mobile but suffered great damage, according to Postmaster Thornton.

The writer of the letter, Postmaster J. B. Thornton, will be recalled by many people here, as he was at one time a teacher in the public schools and also taught in Troy's Business college for awhile. He is related to the Gable family and others of the city, and the initial "B." in his name stands for Blocker, one of the old names here.

**Action of Pros in  
Democratic County  
Convention Uncertain**

It is not known whether there will be much of an effort made on the part of the antis or the pros to capture the county democratic convention today, but presumably the session will be a pretty lively one.

The democratic executive committee of the county, of which H. Elmer Clegg is chairman and Chas. H. Bush of Waco the secretary, will meet this morning at the county court house for a session and to officially canvass the returns of the election of last Saturday, thus saving a lot of time for the convention.

The convention proper will convene at 2 o'clock this afternoon in the fifty-fourth district schoolroom and delegates will be elected to the state convention at Houston and other necessary business transacted.

**Rev. J. M. Dawson Is  
Holding Revival  
at Mart**

Rev. J. M. Dawson, pastor of the First Baptist church of Waco, is conducting a selected meeting at Mart, and it is a most interesting meeting and a fruitful one.

He has spent all this week there and will be there all next week. The people of Mart are co-operating in the meeting, and it is believed that excellent results will be reached.

The Southern Quartette of Waco is going out today and will be at the service tonight singing for the congregation; there has been special music and there also have been other special features during the meeting.

**Says DeLeon Will  
Handle Million  
Bushels Peanuts**

It is estimated that De Leon alone will handle a million bushels of peanuts this year, and arrangements for handling the immense crop of that section already are under way," said Col. W. M. Manchester yesterday, after several days spent on his plantation near De Leon and in looking after banking interests in that place.

Colonel Manchester said that although it has been a little dry, the crop is all right and promises to be the biggest yet raised in that section. He said, further, that bankers, business men and everybody agrees that conditions in the De Leon country are better than they have been for a long while, and this is due to cotton at all, as the people have almost stopped raising this staple. The farmers nearly all have small bunches of

cattle, plenty of hogs, chickens, turkeys, fruit, watermelons, and the fact all the things which are used to make up the crops, making it necessary to buy but little. There is a feeling of security and an air of plenty brooding over the whole country out there.

The dirt roads are being improved, and the people are traveling much in their autos; one man in De Leon made the run to Waco and back in one day last week, transacting business. While before making the return home, this trip cost him something about 250 miles. In the country west of De Leon, where the stock interests are encountered, are found many big and expensive cars, which carry their owners almost anywhere they wish to go.

**Husband Drowned  
in Wife's Sight;  
Burial Yesterday**

With the cries of her husband ringing in her ears, but powerless to help him, Mrs. James Hazeltine, wife of a farmer who has been living about two miles northeast of Hewitt, on Thursday afternoon saw her husband sink to his death at Devil's Crossing on the farm of Charles E. Moore, on the Middle Bosque, and the four children of the Hazeltine's also were on the bank at the time of the drowning.

The body was recovered in about two hours, taken to Hewitt, and the funeral took place yesterday afternoon at 4 o'clock at Stanford's Chapel. Hazeltine was found lying on the line when his wife heard him cry out, and she waded into the water up to her waist in an effort to aid him, but seeing that she could not reach him, tried to get other members of the party;

when they got back, however, the man had sunk out of sight. Efforts were made to resuscitate the drowned man, but in vain, as he was under water for two hours; the water is about twelve feet deep at this point.

Mr. Hazeltine was a resident of the Hewitt community about seven years, and was respected by all who knew him. The Compton Undertaking company had charge of the funeral.

**Former Waco Man  
Tells of Storm  
in Alabama**

J. Hayes Watson of Preston street, East Waco, is in receipt of a letter from his cousin, J. B. Thornton, postmaster at Mobile, Ala., telling of the damage done by the recent great storm, and, the letter says that the residence of Postmaster Thornton was almost ruined by the terrible wind and the driving rain.

PRACTICALLY all the windows were blown out and the house flooded by water, which was even forced under the shingles by the force of the wind, which attained a velocity of a little more than a hundred miles an hour.

Water rose in prominent streets to a depth of ten feet or more, and devastation stalked abroad, though the loss of life was comparatively light. Hardly a house in Mobile but suffered great damage, according to Postmaster Thornton.

The writer of the letter, Postmaster J. B. Thornton, will be recalled by many people here, as he was at one time a teacher in the public schools and also taught in Toby's Business College for awhile. He is related to the Gurley family and others of the city, and the initial "B." in his name stands for Blocker, one of the old names here.

**Action of Pros in  
Democratic County  
Convention Uncertain**

It is not known whether there will be much of an effort made on the part of the antis or the pros to capture the county democratic convention today, but presumably the session will be a pretty lively one.

The democratic executive committee of the county, of which H. Elmer Brown of Oneida is chairman.

Chas. C. Brown of Waco the secretary, will meet this morning at the county court house for a session and to officially canvass the returns of the election of last Saturday, thus saving a lot of time for the convention.

The convention proper will convene at 2 o'clock this afternoon in the fifty-fourth district court room, and delegates will be elected to the state convention at Houston and other necessary business transacted.

**Rev. J. M. Dawson Is  
Holding Revival  
at Mart**

Rev. J. M. Dawson, pastor of the First Baptist church of Waco, is conducting a protracted meeting at Mart, and it is a most interesting meeting and a fruitful one.

He has spent all this week there and will be there all next week. The people of Mart are co-operating in the meeting, and it is believed that excellent results will be reached.

The Southern Quartette of Waco is going out today and will be at the service tonight, singing for the congregation; there has been special music and there also have been other special features during the meeting.

**Says DeLeon Will  
Handle Million  
Bushels Peanuts**

It is estimated that De Leon alone will handle a million bushels of peanuts this year, and arrangements for handling the immense crop of that section already are under way," said Col.

W. M. Manchester yesterday, after several days spent on his plantation near De Leon and in looking after banking interests in that place.

The dirt roads are being improved, and the people are traveling much in their autos; one man in De Leon made the run to Waco and back in one day last week, transacting business in Waco before making the start home this trip entailing a distance of about 50 miles.

In the country west of De Leon, where the stock interests are encountered, are found many big and expensive cars, which carry their owners almost anywhere they wish to go.

cattle, plenty of hogs, chickens, turkeys, fruit, watermelons, and in fact all the vegetables which are used to make up the food crops, making it necessary to buy but little. There is a feeling of security and an air of plenty brooding over the whole country out there.
